\* The goodwill allocated to PI AgSciences Limited cash generating unit are \$1,620 and is tested for impairment annually. The recoverable amount of Goodwill has been determined from a value in use calculation which require the use of assumptions. The value in use calculation uses cash flow forecasts based on the most recently financial budgets and business projections by the management, which cover a period of seven years. Key assumptions underlying the value in use calculation are those regarding expected revenues, a post tax discount rate of 14.5% per annum Sales growth projections considers management's expectation of market development, current industry trends and post-tax discount rate based on the relevant risks 2.5% growth rate has been used to extrapolate the cash flow projections beyond the seven-year period of the financial budgets. The management believes that any reasonably possible change in the key assumptions would not cause the carrying amount to exceed the recoverable amount of the cash generating unit.

## 25 OPERATING SEGMENT

An operating segment is defined as a component of the entity that represents business activities from which it earns revenues and incurs expenses and for which discrete financial information is available. The operating segments are based on the Company's internal reporting structure and the manner in which operating results are reviewed by the Chief Operating Decision Maker (CODM).

The Company has evaluated the applicability of segment reporting and has concluded that since the Company is operating in the field of Agro Chemicals both in the domestic and export markets and the CODM reviews the overall performance of the agro chemicals business, accordingly the Company has one reportable business segment viz. Agro Chemicals.

## 27 FINANCIAL RISK MANAGEMENT

### Risk management framework

The Company is exposed to credit risk, liquidity risk and market risk. The Company's board of directors has the overall responsibility for the management of these risks and is supported by Management Advisory Committee that advises on the appropriate financial risk governance framework. The Company has risk management policies and systems in place which are reviewed regularly to reflect changes in market conditions and price risk along with the Company's activities. The Company's audit committee oversees how management monitors compliance with the financial risk management policies and procedures and reviews the adequacy of risk management framework in relation to the risks faced by the Company.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and impact of hedge accounting in the financial statements.

#### I Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation, and arises from the operating activities primarily (trade receivables) and from its financing activities including cash and cash equivalents, deposits with banks, derivatives and other financial instruments. The carrying amount of financial assets represents the maximum credit exposure and is as follows:

#### Trade and other receivables and contract assets

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate including the past trends on recoverability, ECL Provision is considered based on the matrix defined below. reviewed periodically. Any sales order exceeding those limits requires approval from the appropriate authority.

The Company has established a credit policy under which each customer is analyzed individually for creditworthiness before the Company's credit terms are offered. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company computes an allowance for impairment of trade receivables based on a simplified approach that represents its expected credit losses. The Company uses an allowance matrix to measure the expected credit loss of trade receivables. Loss rates are based on actual credit loss experienced over the past 3 years. These loss rates are adjusted by considering the available, reasonable and supportive forward-looking information.

The following table provides information about the exposure to credit risk and expected credit loss as at 31 March 2026 for both trade receivables and interest & other charges recoverable from customers under the simplified approach:

The exposure to credit risk and expected credit loss on contract assets as at 31 March 2025 is insignificant and hence no loss allowance has been made.

## Cash and cash equivalents, deposits with banks, mutual funds and other financial instruments

Credit risk from balances with banks and other financial instruments is managed by Company in accordance with its policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the management and may be updated throughout the year.

Accordingly, based on the assessment there is no material allowance in the above financial assets.

## Exposure to credit risk:

The gross carrying amount of financial assets, net of impairment losses recognized represents the maximum credit exposure. The maximum exposure to credit risk as at March 31, 2026 was as follows:

### iii Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Due to the dynamic nature of underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines.

# Notes to Consolidated Financial Statements

## iv Market risk

Market risk is the risk that changes in market prices - such as foreign exchange rates, interest rates and equity prices - will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing the return.

The Company is exposed to market risk primarily related to foreign exchange rate risk (currency risk), interest rate risk and market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

### Foreign Currency risk

The company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US\$, British Pound, Euro, Mexican Peso & Brazilian Real. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (\$).

### Sensitivity analysis

A reasonably possible strengthening (weakening) of the foreign currency at March 31 would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, interest rates, remain constant and ignores any impact of forecast sales and purchases. A 5% increase or decrease is used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign currency rate.

## v Interest rate risk

The Company's main interest rate risk arises from long term foreign currency and working capital borrowings at variable rates. Company's investments are primarily in fixed deposits which are short term in nature and do not expose it to interest rate risk.

### Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows:

|                        | March 31, 2026 | March 31, 2025 |
|------------------------|----------------|----------------|
| Fixed-rate instruments |                |                |
| Financial Liabilities  | 3,601          | 7,308          |
| <b>TOTAL</b>           | <b>3,601</b>   | <b>7,308</b>   |

### Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable-rate instruments

There are no variable rate instruments so no cash flow sensitivity analysis has been done.

## 28 CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The primary objective of the Company's Capital management is to maximise shareholder's value. The Company manages its capital and makes adjustment to it in light of the changes in economic and market conditions.
